Cancellations

Due to the low number of enrollments in the late summer and the anticipated low number of overseas assignments in early winter, the November 1977 POA and SOO were canceled. This announcement was made in early August, and Training Officers were asked to enroll employees scheduled to depart for overseas by the end of 1977 in the September 1977 runnings.

PREPARING FOR OVERSEAS ASSIGNMENT

1. The September POA was canceled because there were only five registrants. It was suggested that the enrollees view the videotape entitled "Your Overseas Assignment - Your Personal Checklist." This 15-minute tape was recently acquired from the National Security Agency and is available in the Self Study Center. The step-by-step checklist covers a range of topics from the need and importance of a passport, the medical shot record, and the need for the establishment of financial credit before departure to much practical advice on the possible need for a power of attorney to the payment of state income tax.

2. On a trial basis this running was reduced from two days to one day. This was accomplished by deleting the film, "The Time of the Jackals-Carlos," the session on "Defensive Driving," and the area division briefings. As reported in the 2 August Course Report, this film, though excellent, had been viewed by over half the class in other

courses within the last six months. The area divisions giving the briefings on the Modus Operandi of Selected Terrorist Groups are Latin America Division and Near East Division. In some runnings there have been no students going to Latin America and, therefore, only a need for the Near East speaker. Rather than have only one geographic area represented in the course, it was decided to incorporate this topic with the session on the "Nature of the Terrorist Threat." This session was given by ☐ Office of ☐ gave excellent coverage of the two interrelated topics. This change greatly reduced the duplication of case histories. Those requiring skills in Defensive Driving will receive much more comprehensive instruction as well as practical training in the Countering Terrorist Tactics Course (CTTC). Additionally, each speaker agreed to shorten his presentation. The course chairman and the speakers felt that reducing the program to one day eliminated any repetition of content and made it a more cohesive program.

### General

The purpose of this two-day training program is to sensitize participants and their dependent spouses to the need for following good personal and physical security practices overseas. While it is realized that some people by habit, instinct, or experience are more aware of potential security threats than others, we can all improve our security status if we are aware of the risks involved and make a conscious effort to minimize them.

This Orientation is only a broad overview and an introduction to the subject and offers no specific skills for coping with the terrorist threat and related criminal problems abroad.

### Orientation Objectives

On completion of this Orientation, participants will be able to:

1. Assess their personal and family situation in terms of the nature and variety of security threats abroad.
2. Recognize the need for effective security practices while living, working, traveling, and socializing abroad.
3. Relate the suggestions and experiences of Agency officers and other U.S. personnel who have served overseas to their own need to plan for and cope with a possible hostage situation or other crises.
